Every Thursday
Pasta topped with tomato based vegetarian or meat bolognaise, with grated cheese and sprigs of parsley from the garden. Gluten free pasta available.

Following our successful "Soup Day" in Term 3, the P&F are continuing on with pasta for Term 4. Our first day was HUGE with many enjoying a hot lunch. There was a bit of a line up, but we are going to stagger the lunches for classes so students do not have to wait.
Doll making courses are being held weekly on Fridays at Tarremah in the Fairy wren playgroup room 10:30 am – 12:30 pm

We will start off learning how to make a Waldorf dolls head, then, the style of body made for each doll will be determined by appropriate style of doll for the age of the child for whom it is being made and/or time.

Young children may come along, with the expectation that parent will supervise as required, and assist in making sure all toys are returned to their places at the end of each session.

Cost: materials cost only (varies according to style of doll; tuition no charge, sponsored by Lyrebird; morning cup of tea by donation.

Mudbrick house and beautiful piece of land for sale, Oyster Cove
Looking for tenants in common

We are looking for co-owners for a property in Oyster Cove as soon as possible

The house is on five acres of land. Our intention is to have somebody buy the 1 bedroom house and we develop and live in the current studio next to it. This requires the person(s) coming in to have capital, at least 140k.

We are an energetic, active young couple with a part-time 10 yr old, currently living on the land, developing the place towards more residential and outside living space as well as a fruitful garden, inspired by sustainable principles and permaculture.

We are looking for people that feel inspired by and capable of living in a communal setting with us as well as sharing financial risk, as the arrangement requires this.

We love playing music, eating good food, bush walking, Darvis established Tarkine Trails and we go there regularly.

We look forward to hearing from you, if this has caught your interest.

Contact: Darvis on 0421 743 695 or Lisa on 0421 147 202

House/Petsitter needed for Huon Valley Home  
May/June/July 2017

We are off to the UK and Europe for a big adventure from the end of April to the beginning of August next year, and are looking for a reliable house sitter to take care of our lovely cottage, two affectionate labradoodles and friendly cat while we are gone.

Based near Summer Kitchen Organic Bakery in Ranelagh, we have a 3-bedroom weatherboard house, with two living areas plus kitchen, bathroom and 2 toilets, all set within an acre of beautiful garden. There is a wood firebox in the living room, and a wood stove in the kitchen, so it’s very cosy in winter.

Our home is 25 minutes from Tarremah, and 30 minutes from Hobart. Cygnet is 15 minutes away.

**Eurythmia and Astronomy**

........ is a Eurythmy and Astronomy School based at Muses Haven in Lower Snug, Tasmania, Australia.

**Eurythmy Intensive.** The adult school is offering a three year eurythmy course (three days a week) with a certificate issued by the Goetheanum at the conclusion.

Subjects taught include: Speech Eurythmy, Tone Eurythmy, Astronomy, Sacred Geometry, Cosmogony, Anthroposophy, Biodynamics, Speech Formation, Singing, Painting, Sculpture, Anatomy, as well as offerings from visiting artists and speakers.

No prior experience is necessary.

Eurythmy
---
Speech or Music made Visible

Eurythmy - art of "beautiful movement". It is a pathway engaging the physical body to shape and enliven the etheric body that it becomes “tingingly alive to the life processes in the universe” (Marjorie Spack 1980).

A beautiful path working in community, engaging feeling, thinking and willing to ‘Know Thou Thyself’.

With Micaela Moore, Marlan Goodman.

Astronomy
---
Star Wisdom & Life Rhythms

Astronomy is a being. We have lost contact with her. The time is now to begin to feel her, reconnect with her, hear her speaking and even begin a rudimentary speaking to her. We begin to get to know her, and honour her by becoming familiar with the phenomena, her day and night, Stars, Sun, Moon and planetary movements.

With Brian Keats

As this course takes place in daytime working hours it may suit people who have retired or have day light hours available to them. The course offers an opportunity to engage socially, to be creative in the art and science fields whilst working in a rich and meaningful way.
